OVERVIEW

Banks That Have Embraced BaaS And Embedded Finance Are Generating Higher Returns

According to a16z, banks that have embraced BaaS are experiencing 2-3x above-market return on equity (RoE).

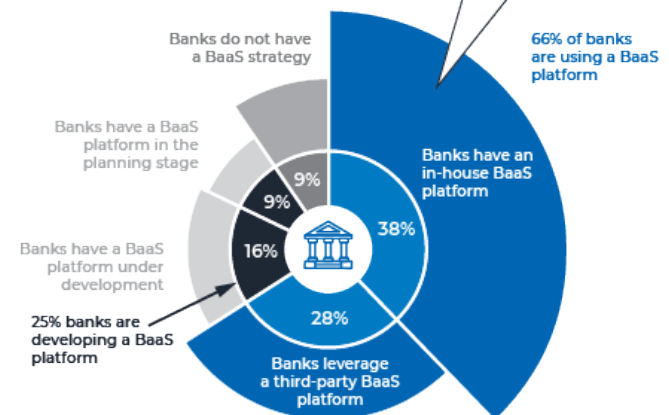

By offering their balance sheet, compliance and financial products via partnerships to BaaS providers, these banks are growing. In turn, the providers allow brands to serve their own ecosystems.

Understanding ecosystems becomes key.

OVERVIEW

Understanding BaaS

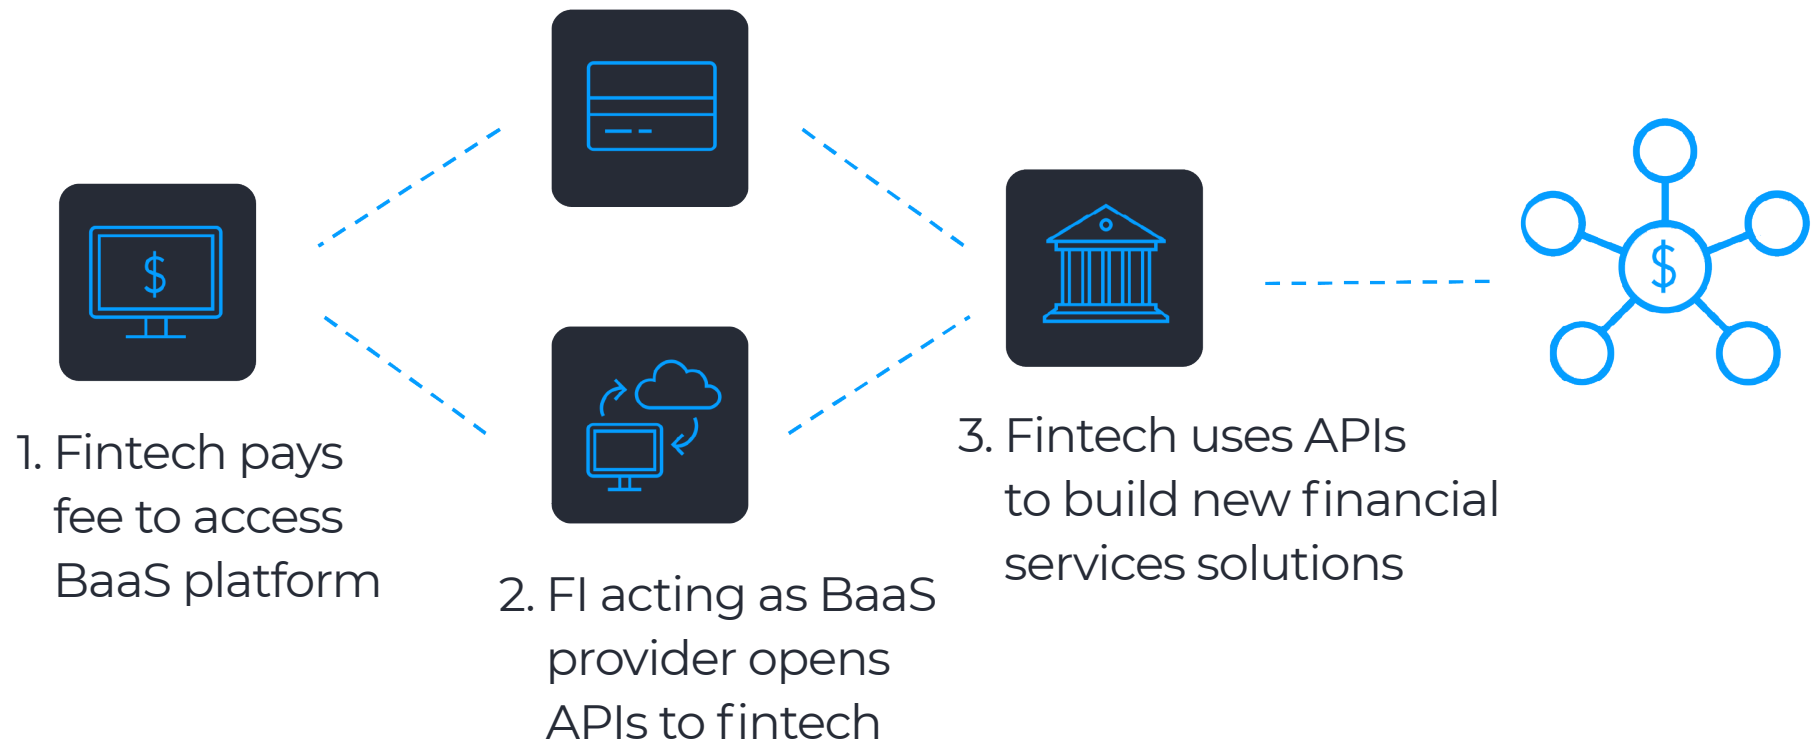

“

There's no perfect model for understanding the BaaS space. I look at it through two lenses: 1) Who is the customer? and 2) How atomic is the infrastructure?”

OVERVIEW

Why You Should Care About BaaS?

Your Banking-as-a-Service Questions – *answered*.

Q. What is Banking-as-a-Service (BaaS)?

A. Banking-as-a-service (BaaS) is a strategy where financial institutions partner with fintechs or brands to provide financial services to the partner's customer base, leveraging the financial institution's charter.

Q. How do banks benefit from BaaS?

A. Banks benefit from BaaS by gaining new and predictable revenue streams, gathering valuable data and insights and taking advantage of the opportunity to shape the financial services landscape.

Q. How do brands and fintechs benefit from BaaS?

A. Banking-as-a-service helps brands and fintechs increase customer affinity while building brand awareness through

the offering of focused financial products and services. Generating new revenue streams.

Q. Should I be concerned about compliance and regulation when it comes to BaaS?

A. While the U.S. regulatory environment around fintech remains fragmented, Nymbus can offer risk & compliance guidelines and legal templates supporting your organization from the very beginning.

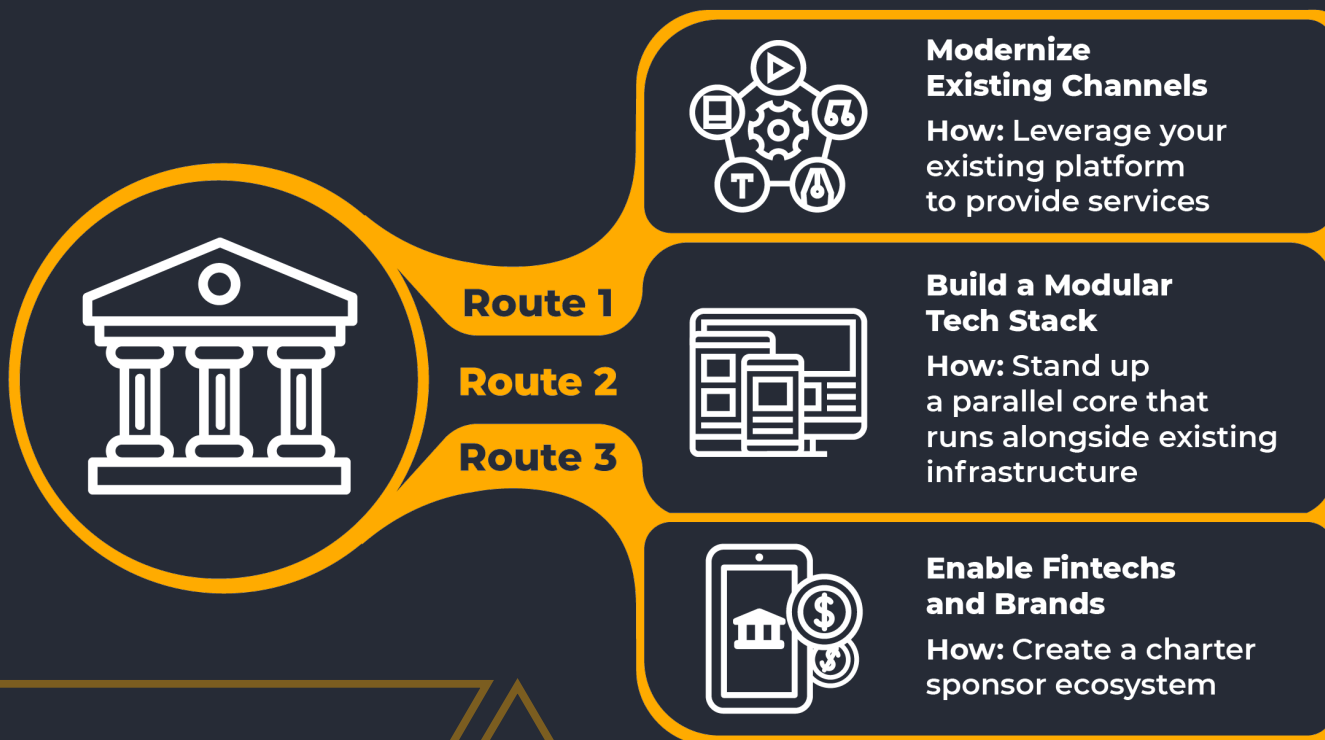

Q. Why is Nymbus' Banking-as-a-Service offer different than others?

A. We've simplified the process for banks, brands and fintechs to scale, embed and modernize financial products and services.
