Reviews Common Toolkit

Why app rankings and reviews?

What Are **Rankings And Reviews**?

App rankings and reviews are left by customers after they have interacted with a mobile app. They are a way for a brand's customers to provide feedback about their experience – good and bad.

Rankings and reviews can be left by anyone who has downloaded or previously downloaded an app in the Apple iOS and Google Play store.

Rankings are given by users by assigning one to five stars and reviews are given by users in free form text.

Why Rankings And Reviews **Matter**

- Rankings and reviews affect mobile app store search ranking***
- Up to **70%** of users filter apps by ranking – if you aren't four stars, you are losing potential business**
- **74%** of consumers read rankings and app reviews before downloading an app on mobile*
- Top **10%** of industry leading brands had higher and more consistent response rates compared to others**

- Reinforces purchasing decisions

2. Social Media

- Encourages more reviews and enhances social proof
- Builds audience across digital channels
- Influences action

REVIEWS COMMON TOOLKIT

Best Practices

Do's & Don'ts: Asking For Reviews

DO...

Do ask customers for "feedback" or to "share their experience"
*51% of customers expect to be asked**

Do explain how reviews allow for future product/experience improvements

Do include links to capture reviews for ease of access

DON'T...

Don't make the ask impersonal and solely review focused
"Leave us a review"

Don't offer monetary incentives or discounts in exchange for reviews

[Google Guideline - User Rating, Reviews, Installs](#)

How To Respond To Reviews

NEGATIVE

- Respond **quickly**, ideally under 3 days
- Apologize and take responsibility for negative experience
- Vocalize intent to improve next time
- Take conversation offline and provide contact information for further assistance to make things right

NEUTRAL

- Reinforce positive aspects that user mentioned
- Encourage user to provide details or general feedback to a support email or phone line
- Publicly acknowledge and apologize for any negative comments
- Provide offline support email or phone line for user to provide more details

POSITIVE

- Express appreciation for their business
- Highlight accomplishment or how your app served the user
- Ask the user to take action *ex: share experience with friends, follow brand on social media*
- Mention other relevant services user may benefit from your brand

Do's & Don'ts: Timing In-app Prompts

DO...

After customer has engaged in an productive app activity

Prompt after app release updates

Ask your most loyal and engaged audience

DON'T...

Interrupt an app activity

Stop a stressful task

Prompt excessively

Ask on the first opening of the app

Ask leading questions of opinion before asking for a review
